Arts and Culture

Driven by a love of making, I have a passion for merging technology and design, using my creativity and technical skills to develop unique and intuitive user experiences. With over 10 years of hospitality experience, my work is bolstered by my empathetic nature and love of collaboration, as well as a curious mindset that I bring to every team.

PROJECTS

WHERE TO EAT   React, JavaScript, Firebase, CSS

Deciding where to eat in a city full of incredible food is hard! This is a community database of user's favourite restaurants in Toronto, storing them based on flavours and foods. Add your favourites!

FICTION FACE/OFF   React, JavaScript, APIs, Sass, Group Programming

The debate is heated! Search for a title and see if the movie or the book is rated higher! Utilizing two APIs and multiple calls to provide the best user experience and search accuracy.

EXPERIENCE

FOUNDING MEMBER + PROGRAMMER   2020 - ongoing
the plumb, Toronto
new artist-run gallery that provides space to emerging + marginalized artists

- Led the design of a cross-channel marketing strategy using Instagram, Facebook and Mailchimp in under three weeks for the first-annual plumbraiser, dramatically increasing social media followers and raising over $10,000
- Develop and collaboratively lead projects including research, planning, curation, MVP, pitching and community programming

SERVER + LEAD EVENT SERVER   2018 - 2019
The Drake Hotel, Toronto

- Worked with special event management to lead and organize a team of servers during events, assigning tasks as needed

SERVER + MANAGER ON DUTY
39 Carden Street, Guelph   2016 - 2018

- Improved back-of-house and front-of-house relationships by encouraging open communication
- Enhanced community atmosphere by developing outstanding rapport with patrons

ASSISSTANT MANAGER + BARTENDER
The eBar, Guelph   2015 - 2017

- Assisted in developing inclusive community programming and designed promotional materials, securing higher event turnout
- Developed cocktail recipes and confucted menu-testing by applying an understanding of market demand and imbine trends
